**RE: WESTERN UNITED SERVICE CORPORATION
D/B/A TITAN BUSINESS SOLUTIONS**

On October 25, 2000 the United States Federal Trade Commission filed a complaint against Western United Service Corporation, d/b/a Titan Business Solutions, alleging deceptive sales practices. Later that day the United States District Court placed the company into Receivership.

The Receiver took control of the business premises and determined that all sales of product and shipments of product should stop. The Receiver has examined the books and records of the companies, including their bank accounts. Unfortunately, there was very little money in the bank. Therefore, it is not possible at this time for the Receiver to honor any requests for refunds. *The possibility for refunds in the future is very remote.*

It is not necessary to return any product or send the Receiver any additional information. The Receiver has control of the company records including information about all purchasers of the *MEDS 2000* billing software program. The Receiver will inform purchasers of any significant future developments.

You may continue to use the software program. However the lifetime Customer and Technical Support that Titan offered to purchasers will **not** be available. The form letters and lists of Doctors will also **not** be available. You may use the Clearinghouse for electronic billing, which was not operated or owned by Titan. To speak to the Clearinghouse, contact:
